LET'S GO KINK

Are you ready to unleash the playful passion within? This Let's Go Kink Pleasure Box for Kinkies invites you on a journey of sensual discovery, bringing your kinky fantasies to life.

Within, you'll find a thoughtful selection of beginner-friendly BDSM toys and accessories. Whether you want to play with dominance and submissiveness, intensify sensations or gently explore sensual pain, this box includes everything you need to get you started.

This little catalogue will guide you through every step, providing you information about the items, an extensive manual, and – of course – tips and tricks.

As much as we loved making it, we hope you'll love it even more.

HAND CUFFS

Get ready to add a touch of flair to your BDSM adventures with these stylish handcuffs! Made of resistant material, but feels soft on the skin. Adjustable in size and are connected by a metal chain, which can be detached for versatile use. You can simply bind wrists together, allowing you to still wrap your arms around your beloved. Or you can hang them on the edge of your bed, the table, the shower, there's bound to be a spot you can think.

Feeling adventurous? Take things up a notch by pairing these handcuffs with the other products for even more excitement!

EYE MASK

Get ready to trigger your senses and explore new adventure of pleasure with a mask! By wearing a blindfold, your senses become hyper-aware, making you more sensitive to touch, caresses, spanking, and other forms of erotic teasing.

Another advantage: wearing a blindfold makes you less likely to feel ashamed and makes it easier to indulge in sex. So, don't hold back and immerse yourself in a world of sensory pleasure!

SM CANDLE

SM candles are different from normal candles, you can use them safely during sex. The candles are less hot than normal candles and the wax is easier to remove from the skin. To remove it even easier, you can apply body oil or lotion beforehand.

Be careful with flammable products in the room and make sure they are away.

Test the candle wax first on your hand to see if the temperature feels right. It may hurt a little -that's the point- but never cross your boundaries.

Work calmly and sensually, drip small amounts onto your partner's skin. Create beautiful patterns or a trail of drops on the body.

Start in the least sensitive areas, such as the back, and work towards the most sensitive areas, such as the stomach. But stay away from the genitals! Hot wax on the clitoris or penis is no fun.

FLOGGER

First, try gently slapping your partner's butt. Try harder if your partner likes it. Once you get the feeling, you can also start spinning in circles and figure eights. With figure eights you can spank both buttocks. Alternate with soft taps between the legs and harder ones against the buttocks.

Please note: communication is very important!

NIPPLE CLAMPS

Is this your first time using nipple clamps? Test the clamps on your finger first to prepare yourself for the feeling.

Pull your nipple a little and place the clamps on the nipples, but not too close to the tips. The nipple clamps have a screw that allows you to clamp them harder or softer. Play with the tightness and see what feels best. Once the clamps are in place, your partner can pull on the cord, which can provide more pleasure.

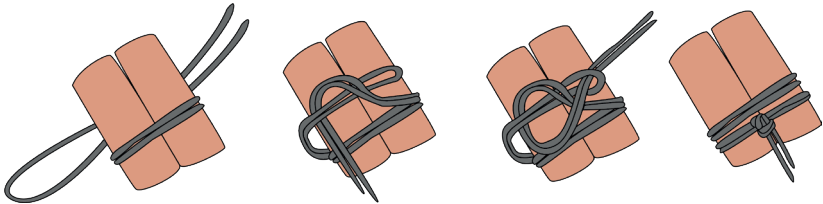

BONDAGE ROPE

The rope is 10 meter so long enough to experiment.

Tie the wrists and/or ankles together with the knot illustrated below.

Don't use the rope on irritated or damaged skin.

VELVET BAG

It's best to keep your toys in a bag. Store each toy separately to prevent damage. While materials like jelly, rubber, and latex are safe for use on and in your body, they can react with each other. This may result in melting or deformation. It's also important to never store your toys in a warm place, for example under a device that may emit heat. Bacteria become very enthusiastic about this.

BEFORE YOU START

Discuss your expectations with each other and indicate your limits. Choose a safe word and agree to stop immediately when this word is said. You can use the traffic light colors:
Green: continue | Orange: softer or different | Red: stop immediately
Do not use the products on damaged or irritated skin.
Keep communicating while using it and enjoy!
