This little catalogue will guide you through every step, providing you information about the items, an extensive manual, and – of course – tips and tricks.

As much as we loved making it, we hope you'll love it even more.

# **SQUEEZABLE VIBRATING STROKER**

The squeezable vibrating stroker contains a small rechargeable bullet vibrator. This gives the stroker different vibrations to explore.

Use lubricant on the side with the structure and on the penis. Place the stroker in your hand and curl it around the penis. After this you can go back and forth over the penis. You can do this by yourself or with your partner. After use, clean it with warm water.

# MASTURBATOR EGG

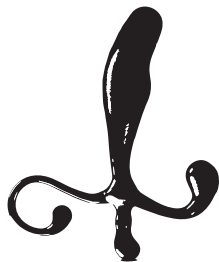

A masturbation egg is the ideal way to enjoy yourself. Put some lubricant in the egg and on the penis. Place the egg around the penis and let the structure of the egg slide along the skin. This egg has 2 different structures so you can also use the egg inside out. Of course you can also use the egg with a partner. After use, clean it with warm water.

The egg is made for several times of use, if you are not too enthusiastic with it. After about five uses they have had their best time.

# PROSTATE MASSAGER

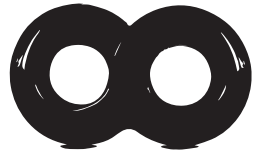

This prostate massager is curved, making it easy to reach and massage the prostate. It is ideal for beginners and an excellent way for beginners to try anal toys. The curved handle makes the massager easy to remove.

Use it in combination with lubricant to make it more enjoyable. The unique shape allows you to easily insert the toy and apply direct pressure to the prostate.

If you feel pain or discomfort, stop and take a break.

# DOUBLE COCKRING

A double cockring is designed to put the rings not only around the penis, but also around the balls. Slide one of the rings around the semi-erect penis and the other around the balls.

This cockring can be used in different ways. You can also put both rings only around the penis, or only around the balls. You decide what you like best.

Wearing a cock ring has several advantages, such as maintaining an erection for longer and increasing the sensitivity and intensity of the orgasm.

# LUBRICANT PREMIUM FORMULA

Lubricant is a valuable addition when using sex toys and during sex. It facilitates the insertion of toys and reduces friction, increasing comfort. During sex it can enhance pleasure, reduce dryness and improve intimacy.

Apply lube liberally to both the body and the object that you use. Take it slow so you can create an enjoyable and satisfying experience.

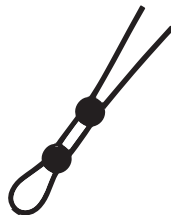

# ADJUSTABLE COCKRING

This cock ring is adjustable and therefore easy to use. By pressing the buttons you can move them over the cord.

Place the cock ring around the semi-erect penis and adjust it to the right size. Because it has two buttons, you can put this cock ring around the penis and balls. This also has the advantages of maintaining the erection for longer and increasing the sensitivity and intensity of the orgasm.

# VELVET BAG

It's best to keep your toys in a bag. Store each toy separately to prevent damage. While materials like jelly, rubber, and latex are safe for use on and in your body, they can react with each other. This may result in melting or deformation.

It's also important to never store your toys in a warm place, for example under a device that may emit heat. Bacteria become very enthusiastic about this.

# ALL PLEASURE BOXES

After experiencing the excitement and satisfaction of this pleasure box, it's a tempting idea to explore what other boxes have to offer. Each pleasure box can contain a unique composition of sex toys and accessories, aimed at different aspects of pleasure.
