CHARGING INSTRUCTIONS

Vibrator arrives with a partial charge, so it is advisable to charge before use for maximum experience.

Connect the USB plug into the USB port of your computer or other output and the other end of the DC charger into toy's input. The toy charges at 5V and operates at 3.7 volts, using a lithium polymer battery.

Initial charge will take about 3 hours, and subsequent charges take about 2 hours to complete.

The blue indicator light will flash while device is charging, and remain solid when toy is fully charged. There is no danger of battery damage by overcharging.

Charge lasts for 60 minutes of play time in total.

This toy operates at a 50dB sound level.

Toy vibration stops completely when battery power depletes to its lowest level.
