Finish: PU coating
Size: H: 161.8mm W: 31.3mm D: 66.8mm
Battery: Lithium ion
Voltage: 3.7V
Number of Vibrations: 7
User time: >90 minutes
Sound Level: <50dB

CHARGING INSTRUCTIONS

This vibrator arrives with a partial charge, so it is recommended to fully charge before use.

Connect the USB plug into the USB port of your computer or other output and the other end of the DC charger into toy's input.

Initial charge will take about 2 hours, and subsequent charges also take about 2 hours to complete.

The indicator light will flash while device is charging, and remain solid when toy is fully charged. There is no danger of battery damage by overcharging, but it's recommended not to overcharge for long periods of time.

Charge lasts for about 110 minutes of play time on the lowest vibration level, and about 90 minutes of play time on the highest level.

Toy vibration slows before stopping completely when charge is fully depleted.

This toy comes with a Li-ion rechargeable battery and operates at 3.7V. It vibrates at a sound level of 50 db.

INSTRUCTIONS FOR USE

This toy has a simple, one-button control. To turn toy on, press the button for at least two seconds. The LED light will turn on, and the toy will start with its first pattern, a low vibration.

Once toy is turned on, press the same button to cycle through seven different patterns. The first 3 are vibration speeds, then pulse, double pulse from weak to strong, a 'breath' like vibration, and finally, 5 pulses with a long vibration at the end.

Each pattern of vibration lights up the LED light with a different color.

To turn toy off, press button for at least 2 seconds. LED light will turn red, then toy will power off.
