EVOLVED
Love is Back

Product Specifications:

Material: Silicone + ABS
Battery: Li-ion battery,
3.7V/650mAh
Voltage: 5V
Number of Vibrations: 9
vibration, 9rotation
User time: 50-85 minutes
Sound Level: <55dbs

CHARGING INSTRUCTIONS

This vibrator arrives with a low partial charge, so it is recommended to charge fully before first use. Connect the USB plug into a power source, and the other end of the charger onto the toy's magnetic charging pins, located at the front of the toy under the rotating fingers.

Initial and subsequent charges take about 120 minutes to complete. The indicator light will flash while device is charging and turn solid when fully charged. There is no danger of battery damage by overcharging but it's recommended not to overcharge for long periods of time.

Charge lasts for about 85 minutes of play time on the lowest level of vibration, and about 50 minutes on the highest level.

This toy operates at a sound level of about 55db with 650mAh lithium battery at a voltage of 3.7V / 5V.

INSTRUCTIONS FOR USE

This dual vibrator operates with a 2-button panel located on the back of the main shaft handle. Each button controls a separate motor with its own on/off function. The bottom button controls the vibration in the 'tail' while the top button controls the 'finger' rotation and vibration in the head.

Press the bottom button for at least 2 seconds to turn on the vibration in the tail. The LED light will go on and the motor will begin in its first lowest speed. Click again more quickly to cycle through a total of 9 speeds and rhythms. Press the button again for at least 2 seconds to turn this motor off.

Press the top button for at least 2 seconds to turn on the rotating function in the head. The LED light will go on and rotating will begin. Two fingers twirl, one vibrates. Press again more quickly to cycle through 9 speeds and functions of finger rotation. Press the button again for at least 2 seconds to turn this motor off.
